

# V-COMPOST

**100% Plant source organic matter converted into odourless compost**

پاکستان کے رنگ۔ وائٹل ایگری کے سنگ

V-Compost provides a microbial source of organic matter, humus, and other important soil builders required by plants to thrive. It is essential to promote the vitality of the soil or any other media used to grow plants. Its addition enhances the microbial activity in the soil and helps to improve other crucial soil characteristics.

V-COMPOST is an organic compound formulated to promote soil performance by enhancing its texture and fertility.

# Chemical Analysis

## V COMPOST
